

AR / FACTORING

Fund Your Growth While Streamlining Your Accounting

Accounts receivable financing is purchasing accounts receivable invoices at a discount. If you sell your products or services to markets that pay in 30, 60, 90 or more days, New Horizon Capital Funding has a liquidity solution for you. We can finance businesses that are losing money, start-ups or those that are in bankruptcy because we base the factoring on the credit of your customer, not yours. For that reason, it is not considered a debt.

Get in touch with one of our representatives today, and find out what financing through receivables can do for your company.

Limitless Source of Financing:

- No Personal Guarantees Required
- Financing Available for Any Business
- Focus on Your Business Instead of Collections
- No Fixed Payment
- No Arbitrary Loan Board Decisions
- Ability to Service Large or Unexpected Order
- Credit Insurance at No Additional Cost
